ZONE ORDINANCE TO BE OUTLINED

PROVISIONS OF MEASURE DO NOT SEEM TO BE FULLY UNDERSTOOD BY MANY

EDUCATION NEEDED

RESUME OF SUGGESTED LAW AND MAP OF DISTRICTS WILL BE PUBLISHED

Radical differences of opinion, due, evidently, to a lack of thorough understanding of the proposed zoning ordinance, developed at the meeting of the Board of City Trustees last night, when the report of the zoning committee was filed and a public hearing given the question.

As a result of the discussion, the explanation was made by Dwight Stephenson, president of the board, that the trustees had no intention of taking hurried action on the ordinance and that full consideration would be given to the committee's recommendations and, too, that the public would be more fully informed as to the provisions of the proposed ordinance, so that there would be no misunderstandings.

Nearly an hour and a half was devoted last night to hearing an outline of the report of the committee, given by L. T. Rowley, listening to suggestions made by citizens present and to examining a map on which the various zones were outlined in colors.

As a result, the only formal action taken was to receive the report of the committee and the proposed ordinance accompanying it, and to adopt a resolution thanking the committee for its labors and request it continue to serve until the question is finally settled.

Arguments Are Made

Arguments both for and against zoning the city were made by citizens present at the meeting. A number took no active part, evidently attending the session to learn just what is proposed to be done under the suggested ordinance.

In view of the fact that there was some misunderstandings regarding the provisions of the proposed ordinance, it is assured, judging from expressions by individual members of the Board of City Trustees, an outline of the suggested measure will be drafted and published, together with a map showing the various dis-

BASEBALL GAME

GLENDALE ELKS TO CONTEST AT DAVIS PARK, IN LOS ANGELES ON SUNDAY

Glendale B. P. O. E. baseball team, although composed of amateur players, nevertheless has some members who are considered "comers" in the baseball world. Two weeks ago Cecil Crandall pitched a game against a professional team and held them to three hits, with George Hastings catching.

Next Sunday the Glendale Elks' team will play the Werden's O. A. H.'s at Davis park, Twelfth and San Pedro streets, Los Angeles. The local team is under the management of Vincent Salmacia.

David Roberts, 14-year-old son of Richard Roberts of 420 West Maple street, accidentally shot himself in the hand last Friday night while loading a .22-caliber revolver.

The bullet entered the palm of his left hand and came out the back of his hand near the wrist. Although the bullet went through the bone, it did not shatter it. The wound is healing nicely.

The floods of the river this season were claimed to have been the highest in ten years.

STARTS INQUIRY ON PHONE TOLLS

LEGISLATIVE COMMITTEE TO HEAR CITY'S COMPLAINTS, RULES TRUSTEE BOARD

AUTHORIZES ACTION

STATE BODY FAILS TO TAKE PROPER RECOGNITION OF GLENDALE, IS CLAIM

Declaring that during the past year or more there have been a great many expressions of dissatisfaction on the part of Glendale people with the present telephone toll rates between Glendale and Los Angeles, T. W. Watson, city manager, last night recommended to the Board of City Trustees that Hartley Shaw, city attorney, and W. E. Evans, former city attorney, be asked to appear before a joint committee of the state legislature scheduled to hold hearings in Los Angeles shortly.

The legislative committee, headed by Senator Inman, is investigating the state's Railroad Commission. The investigation was authorized by the legislature because of many complaints being made against public utilities.

On motion of Trustee Lapham, the recommendation of the city manager was authorized. It was stated that Attorney Evans has consented to act with City Attorney Shaw without expense to the city.

In his letter to the trustees, the city manager asserted that Glendale has repeatedly called the attention of the Railroad Commission to the matter of telephone tolls, but no hearing has been held, although promises for one have been made.

Urges Action in Letter

The city manager filed a letter with the board last night in which he urged the action be taken. The letter follows:

"I understand that a joint committee of the California legislature headed by Senator Inman of Sacramento has been directed by a resolution of that body to investigate the Railroad Commission of California.

(Special Service to Glendale Evening News)

LOS ANGELES, Feb. 4.—Fiery attacks on Mrs. L. Louise Peete's "reasonable doubt" defense, characterizing it as "ridiculous" were made today by prosecution lawyers who asked that she be sentenced to die on the gallows. Final arguments were in progress in Superior Judge Willis' room where she is on trial for the murder of Jacob C. Denton. Deputy District Attorney Turney reviewed the evidence and testimony, declaring guilt had been fastened upon the defendant beyond all doubt.

"Mrs. Peete made inquiries as to Denton's financial standing. We believe that established the motive," declared Turney. "She used various pretexts to keep Mrs. Ida L. Gregory and her daughter away from the Denton mansion the day the murder was committed. She wanted to kill Denton and could not have the Gregorys come at the time."

FACING CHARGE

EVERETT ROBINSON IS HELD IN JAIL ON ACCUSATION OF WRECKING AUTO

Everett Robinson, whose auto stalled on the S. P. track in West Glendale a few months ago and who was accused of halting the machine in the path of an oncoming train in order that it might be smashed and he collect the insurance, was arraigned in a justice's court yesterday on the charge of making a false proof of loss to an insurance company, and was committed to jail in default of $2,000 bail.

The machine was duly smashed, according to program, but the engineer of the heavy freight train that did the smashing testified that he saw the driver jump from the car and run when the engine was within fifty feet of it.

Robinson had declared that his car had been stolen and that his first clue was when he discovered it had been wrecked by the engine.

In his defense yesterday he declared that he and his companion, R. W. Drake, had consumed a gallon of wine before he drove on the track, hence he did not know what he was doing.

C. OF C. SECURES 329 IN 3 DAYS

GOLD DIVISION HAS HONOR OF SECURING MOST SO FAR IN CAMPAIGN

RIVALRY VERY KEEN

V. M. HOLLISTER'S TEAM IN RACE WITH A. R. EASTMAN AND HIS HELPERS

At the conclusion of the third day of the drive to secure memberships in the re-organized Chamber of Commerce, the reports showed that the total of new members is now 329, with a Twelve Hour Reserve membership of eighty-two, all of which is considered a good showing by J. O. Stevenson and the executive committee in charge of the work.

The Gold division is walking away from the Blue division, according to the figures submitted at the close of the day's work, for the former organization has secured a total of 166 active members, while the Blue division has a total of 143. The day before only a few memberships separated the two squads.

"Three cheers for our side!" called out C. D. Lusby, one of the majors in the Gold division, when the results of the third day were announced at the luncheon held in the First Methodist church.

"Wait until the final returns are in," suggested Owen Emery, one of the majors in the Blue division.

The rivalry between the two divisions is keen and the result of today's work is being awaited with great interest by all of the workers.

Another Close Contest

Next to the contest between the two divisions, comes interest in the race between V. M. Hollister and A. R. Eastman to see which, as captain of a team, can secure the greatest number of members through team work.

At the close of yesterday's report, Hollister was leading, but the lead was slight. His team had signed up thirty-eight active members. But so had the team headed by Eastman. However, Hollister's squad had sixteen reserves to its credit and the

They expect to make Glendale their permanent residence. Mr. and Mrs. Lord, another brother-in-law and sister, just recently came here from the east. Mrs. Lindinman's son, Mr. Cleveland, is also a resident of Glendale.

Perhaps the most extensive electric sign in Glendale is the one recently put in place by H. S. Webb & Co. across the front of both stores occupied by them—one the original dry goods store to which millinery is to be added, and the other the Men's Shop, which they expect to formally open about February 12. Still another electric sign has been erected by this firm, over the Broadway entrance.

C. B. Kennedy of Morrison, Illinois, who, with his wife, is spending the winter in Glendale, declares he is highly pleased with southern California and, in particular, the city of Glendale. Mr. and Mrs. Kennedy came to California without informing but three persons in Morrison of their intention. They made up their minds to go on the trip, then completed arrangements without any but these three persons learning of the fact. They are friends of Dr. H. D. Cochran of this city and also of Mr. and Mrs. Bert Spears, 718 East Acacia avenue.

Rev. R. C. Morgan spent yesterday afternoon in Los Angeles as the guest of Honorable James J. Davis of Pittsburg, Pennsylvania. Mr. Davis' name is frequently heard in connection with the choice of the Harding cabinet and it is possible that he may succeed Secretary of Labor Wilson. Mr. Davis is a newspaper man, owning "The Pittsburg Druid." The Davis family are all connected with the Penn Avenue Baptist church, of which Reverend R. C. Morgan was pastor when he retired from the work of active ministry and came to Glendale for a period of rest.

MAY PASS ON OWN GRADES

BERKELEY, Feb. 4.—Students will be given the chance to pass on their own grades in the mid-western examinations if the present plan of the University of California professors is adopted. The lack of funds, according to the professors in the academic departments has made it imperative to devise some other plan than the usual one of hiring readers to mark the papers.

Under the new plan students will be chosen from the graduate or senior class for their ability in a particular class, and then will correct the "quiz papers" of their fellow students. The final papers will be read by the instructor in charge of the regular reader.

CHESS PLAYER DENIED VISIT

WASHINGTON—Emanuel Lasker, noted chess player, has been denied permission to visit this country en route to Havana for a world's championship match with Capablanca. It was said at the state department that Lasker's application for passport vise to permit him to visit this country had been refused under the ruling denying permission to German nationals to enter the country unless a showing was made justifying waiving the restriction. Lasker's application merely stated that he desired to renew friendships here.

ABILITY TO THINK IS REQUIRED

LONDON—In the will of the late Dr. Charles Arthur Mercier, an alienist, he provided for the establishment of a chair of rational logic and scientific method.

Questions as to the proper execution of the document have taken relatives and the public trustees before the probate court.

Mercier designated that "the purpose of this foundation is that students may be taught not what Aristotle or anyone else thought about reasoning, but how to think clearly and reason correctly and to form opinions on rational grounds.

"The professor is to be chosen for his ability to think and reason and teach and not for his acquaintance with books on logic."

In selecting the professor one who knows neither Greek nor German is to be given first chance; who knows Greek, but not German, second chance; who knows German, but not Greek, third; and who knows both Greek and German, fourth.

TO AID EX-SERVICE MEN

SACRAMENTO — Adjutant General Borree announced that his office is prepared to assist former service men of California who lost their certificates of discharge through the process of forwarding them to the war department at Washington in order to obtain their bonus granted at the close of the war.

Notice has been received by General Borree that the finance officer of the army is holding several hundred certificates, though they cannot be forwarded to the owners because addresses are missing.

WILSON WILL WRITE HISTORY

WASHINGTON — America soon will know the story of its participation in the world war and peace negotiations from its first authority—Woodrow Wilson.

The president's first work after leaving the White House will be to bring his own history of the United States down to date.

This will include his own eight years in office.

Students of events hope he will reveal and interpret situations preceding America's entry into the war, its part in the conflict and its difficulties at the peace table, which only the president knows all about.

Writing this work is expected to take Wilson a comparatively short time, as his personal notes on events are complete and thoroughly systematized.

One reason for his remaining in Washington is that he will be convenient to national records.

FOR SHORTRIDGE

BANQUET IS HELD BY PARTY LEADERS; W. E. EVANS OF GLENDALE, SPEAKER

W. E. Evans of Glendale was one of the speakers at the banquet held at the City club in Los Angeles last night in honor of Samuel M. Shortridge, United States senator-elect from California. The gathering was under the auspices of the Los Angeles County Republican Central committee and Chairman Al Bartlett presided.

Major Walter F. Lineberger, candidate for congress in the ninth district, was also one of the speakers and the meeting developed enthusiasm for his campaign.

Senator-elect Shortridge gave a remarkably pleasing speech, both for wit and earnestness. He promised to see that this section received fair treatment.

W. E. Evans Is Speaker

Mr. Evans, when called upon by Toastmaster Bartlett, said:

"Senator-Elect Shortridge, Ladies and Gentlemen:—We are pleased to have this opportunity of coming together for the purpose of paying tribute in this modest manner to our distinguished guest, Senator-elect Hon. Samuel M. Shortridge, and to the party of which he is such a worthy disciple. The history of this republic for more than fifty years is the history of the Republican party, and it is a record of which all Republicans are justly proud. Its principals are eternal and will survive. The old, old landmarks of freedom, liberty and protection to all the citizens of the nation as promulgated by Lincoln, McKinley and Roosevelt are the basic principals of this splendid old party and they bear that semblance of truth upon which is founded the teachings of holy writ.

Safe and Sane Rule

"We glory in the anticipation of a return to safe and sane administration of governmental affairs under the leadership of that great American, Warren G. Harding, supported and sustained by a Senate and Congress made up of statesmen of the type of our distinguished guest. It was my pleasure, and indeed my privilege, to follow Senator Shortridge through his campaign for this high office preceding the November election. I shall never fail to remember the deep impressions I received as I listened to him, on at least a half dozen occasions, point out and discuss with his masterful power of intellect the many great and economic questions now confronting the American people. On each occasion I felt that I had had a great intellectual treat from which I had been duly benefited. I could not refrain from comparing the manner of his campaign, the scholarly fashion with which he pictured these great questions and offered his plans for solution, with the feeble efforts of his opposition who apparently regarded the contest not in the light of a popular election, but more in the light of a public auction at which there was being bartered some article of commerce or trade.

"The people of California believe in your genuine style of Americanism, Senator Shortridge. They believe in your sincerity of purpose and see in you that magnificent spirit of heart and soul which further qualify you to run with honor the course laid out before you. As you take up your duties in our national capital, I bespeak for you the unreserved support, friendship and co-operation of the people of this southland and of the state of California, the like of which has not been surpassed in the history of this great commonwealth."

Here Mr. Evans took up for a moment the campaign of Major Lineberger for Congress in the ninth district and urged Republicans of the entire county to lend their support to this campaign and to get out the vote February 15, election day.

ENGLAND'S DEFENSE OUTLINED

LONDON — John Bull has taken elaborate precautions to prevent Sinn Fein from "carrying the war to England."

Here are some of the defensive measures perfected:

One—A vast secret service is working in Ireland to uncover plans for Sinn Fein operations in England.

Two—The coast guard has been strengthened to keep out Sinn Fein agents.

Three—All ships, shipyards, warehouses and docks are closely watched.

Four—Downing street, where Lloyd George lives, has been shut off by a high wall, with entrance by permit only.

Five—The houses of Parliament are heavily guarded by uniformed and plain clothes officers outside and inside the buildings; loitering in the halls or lobbies is prohibited: a "strategic" telephone system has been installed; armed boats patrol the Thames river side of the buildings.

NOW IT'S MR. HENRY PRUSSIA

BERLIN—"No royal highness in Germany now," said a postoffice employe as he handed back a letter addressed to "His Royal Highness, Prince Henry of Prussia." "How shall I address it?" the woman asked. "The official reply was, "Mr. Henry Prussia."

FRANCE THREATENS GERMANY

PARIS, Feb. 3—France again tightened the screws on Germany today with the threat that special customs taxes will be inaugurated if Germany refused to accept the reparations demanded of the allies. Negotiations continued today. Premier Briand was to go before the French chamber today to reply to Foreign Minister Von Simmons' declaration that Germany will not accept the allied decision.

Experiments have proved that various treelike plants, bamboo and shrubby grasses, can be made into paper.

DID YOU FORGET ANY MONEY?

ALBANY, N. Y.—Get any money you've forgotten about? Don't laugh! Put on your thinking cap.

There are 25,000 forgotten bank accounts in the state of New York!

Some of them have been in bank for more than fifty years.

Some of them amount to as much as $3000, though most of them are small accounts.

A dollar in a savings account doubles itself in seventeen years. In fifty years a dollar in a savings account would amount to $8.

If you deposited $10 fifty years ago, you'd better look it up. You'd have enough to pay your income tax.

But, if you want to leave it there a hundred years, your heirs can buy a limousine.

BOOK OFFERINGS

NUMBER OF VOLUMES BEING RELEASED; GLENDALE MAN HAS WORK ISSUED

Fiction and non-fiction are included in the books offered to the public by the Glendale library, as shown by the list of those released yesterday. There have been many inquiries recently for books and stories about the South Seas. The following volumes were among those put out this week:

"Foods and Household Management," a text book of the household arts, by Kinne and Cooley.

"West Coast Shells," by Josiah Keep. A description of the principal marine mollusks living on the west coast of the United States, and of the land shells of the adjacent region.

"Navigation," by Harold Jacoby. This work is designed to meet the wants of hundreds of young officers recently taken into the navy, as well as more certain to enter that service, who know little of mathematics and less of astronomy as applied to the daily problem of determining the position of a ship at sea.

"Rec Rock," by Thomas Nelson Page. A chronicle of reconstruction.

Author Is Glendale Resident

"White Shadows in the South Seas," by Frederick O'Brien. At the present time Mr. O'Brien is a resident of Glendale. He was formerly a newspaper man at Riverside, California.

"Christ and the Dramas of Doubt," by Ralph Tyler Flewelling.

"Play in Education," by Joseph Lee.

"The Trumpeter Swan," by Temple Bailey. The story of a young man just from the army, and his love affair.

"The University of Hard Knocks," by Ralph Parlette. The author says "the greatest school is the University of Hard Knocks. Its playground is th universe; its president is the Almighty. Its books are bumps."

"Points of Friction," by Agnes Repplier. This volume discusses, as the title suggests, subjects which are open to argument. But whether or not one agrees with the author it is a pleasure to get the point of view of a mind so clear, so keen and so original.

Books on Efficiency

"Efficient Living," by Edward Earle Purinton. "Failures and successes are not born. Failures happen. Successes make themselves. What are you doing with your life?" This book tells you how to make the most of yourself physically, mentally and commercially.

"Personal Efficiency in Business," by Edward Earle Purinton. Common sense advice for the man who is anxious to enlarge his business and increase his own efficiency.

"Top o' the Mornin'," by Seumas MacManus. Modern Irish tales of the home folk in the glens of Donegal, and of the lads and lasses who came adventuring to far New York, bringing with them their home-bred wit and spirit.

"Ancient World,' from the earliest times to 800 A. D., by Willis Mason West.

"Mediaeval Europe," 814-1300, by Emerton.

"The Middle Ages," by Philip Van Ness Myers.

In Juvenile Department

The following books will be released tomorrow in the juvenile and young folk's department of the library:

"The Story of the Ship."

"The Goop Encyclopedia," by Gellett Burges.

"Billy Whiskers," a series of books.

The regular meeting of the Doran street Parent-Teacher association was held in the school Wednesday afternoon, Mrs. P. Diederich presiding.

CITRUS INCREASE

FIGURES GATHERED SHOWING THERE WILL BE 53,000 CARLOADS FROM STATE

Information furnished The Evening News by the United Press, on figures compiled by The Daily Press of Riverside on the citrus crop of the state for the 1920-21 season, indicates that there will be 53,000 carloads.

Southern California, 39,500 oranges, lemons 8,700. Central California, oranges 4,300, lemons 200. Northern California, oranges 300; with total of 44,100 oranges and 8,900 lemons for the state with a grand total of 53,000 carloads.

The Southern California estimate in oranges is about a 30 per cent increase over the actual shipments of last year, and lemon output about the same as last year is estimated in the report.

Riverside county is estimated to have a crop of 4585 cars of oranges and 1135 cars of lemons—5710 cars. This estimate according to the report is the best crop in ten years.

HOUSE SHORTAGE

FOUR MILLION PERSONS ARE INADEQUATELY HOUSED, IS STATEMENT OF EXPERT

There is a shortage of houses in America reaching the enormous total of 1,250,000, according to figures submitted to the national council of the Chamber of Commerce of the United States, which convened at Washington to consider measures of relief.

The housing shortage, according to John Dilder, manager of the national chamber's civic development department, has reached a point where 4,000,000 persons are inadequately housed. Dilder has made a close study of the housing problem.

"For a number of years prior to the World War," said Dilder, "it is conservatively estimated that there were erected in the United States between 350,000 and 400,000 family dwellings in a year. This includes homes and apartments.

Far Behind Building Program

"During the war construction of houses was practically at a standstill, with the exception of what building was done by the government. As a result of this we came out of the war far behind our regular building program. The situation has not improved a great deal since the signing of the armistice except for a brief spurt early in 1919, because those who contemplated building homes put it off until prices should become stabilized.

"In 1919 it is estimated that there were built only about 70,000 houses in the United States, while the number erected during 1920 will probably turn out to have been even smaller than that figure.

Wage Earner Hard Hit

"While it is true that there are many houses for sale, these are all now occupied by tenants. The number of houses for rent in most communities is practically nil and the majority of these houses are not suitable for the needs of the average wage-earner.

"A man with an income of $5000 a year or more doesn't have as much trouble getting desirable quarters as the wage-earner who cannot afford to pay high rents. The wage-earner and those earning small salaries are the ones who are hit hardest by the housing shortage. It is for these folks that decent homes must be built."

Views of People Sought

"We believe there will be time at this meeting for those interested in the several streets mentioned respectively to make their views known as to the improvement thereof. It would require considerable time to hold separate meetings for each street and we believe the entire matter can be covered at one meeting,

"Petitions were filed several months ago asking for the improvement of Elk avenue, Oak street and Mariposa avenue. Property holders and others interested in the other streets mentioned here, however, have expressed from time to time during the past two years a desire to have them improved and if the work is to be done this summer improvement proceedings should be started without delay."

ZONE ORDINANCE

BOARD OF TRUSTEES PLANS TO SHOW PUBLIC BY MAP WHAT IS PROPOSED

(Continued from Page One)

tricts in which restrictions are sought.

Mr. Rowley was selected to speak for the zoning committee and he outlined the work done. During his remarks he stated that, in his opinion, the zone of commercialization should be extended from Central, where it now ends in the proposed ordinance, all the way down West Broadway to the San Fernando Road. His suggestion seemed to meet with the approval of Trustee Lapham.

Neighborhood Groceries

Under the proposed ordinance, neighborhood groceries, unless already in operation, are barred from a large section of the city, unless a certain percentage of the affected property owners request an amendment to the ordinance permitting them to enter. The same applies to flats, duplex houses and apartment houses.

T. W. Watson, city manager, stated that the proposed ordinance was only the foundation on which it is proposed to build a large city and avoid troubles confronting other cities that have no zoning measure. He said the ordinance as suggested is elastic and could be changed, with the consent of property owners affected, as the needs demand.

President Stephenson of the board declared that, in general, the plan appealed to him, but he thought that, after studying it further, he might have some changes to suggest. He wanted, he said, to make a thorough inquiry into the business zone.

Makes Strong Protest

R. S. Person made a strong protest against the suggested measure, declaring that if Glendale is to continue to grow in the future it must forget that it is a "city of homes" and go after industries, hotels and apartment houses. He asserted the city has not yet reached the stage where a zoning ordinance is necessary."

Some in the audience objected to having a zone for the motion picture industry, saying it was not wanted in Glendale at all; others asserted such a zone was proper and that properly regulated moving picture studios were an asset to a city.

Others urged the commercial zone be enlarged; others suggested that flats and duplex houses be invited anywhere in the city.

Enlightenment Is Needed

The discussion showed plainly to the Board of Trustees that a majority present did not seem to have a clear conception of the proposed ordinance and so the suggestion was made that a resume of the measure be drafted and printed for public circulation, together with a map showing just what is contemplated. This suggestion will probably be carried out, it is stated.

Trustee Bartlett pointed out that it will be impossible to please everyone. She said that the committee had done the best it could, had had expert advice and had given the trustees a ground work on which to build for the future.

City Attorney Shaw asserted that the report was, in the main, a good piece of work. He was opposed, he said, to permitting the city to grow "wild" as had other cities. He said the rights of others had to be considered and that after a person had invested in a fine home it was not right to have a store or an industrial plant built on adjoining property.

Not "Hard and Fast"

Speaking for the committee, C. W. Ingledue said the proposed ordinance was not a "hard and fast" one for the reason that it contained provisions that permitted changes in the zone at the request of interested property owners. He asserted the report of the committee gives the city a basis on which to work in restricting industries, business, hospitals and others from building anywhere and everywhere in the city without consulting the wishes of property owners.

As the discussion went on, it was evident that a number did not have a thorough understanding of the measure and so, after the matter had been heard for nearly an hour and a half, no further action was taken beyond receiving the report formally and giving a vote of thanks to the committee, which had been in session since last September.

The members of the committee present last night were L. T. Rowley, Mrs. A. A. Barton, C. W. Ingledue and Mrs. Ann P. Bartlett.

COMPLAINTS OF CITY OVER TELEPHONE TOLLS TO BE TOLD LEGISLATORS

(Continued from Page 1)

The committee I understand expects to hold hearings in Los Angeles in the near future.

"During the past year or more there have been a great many expressions of dissatisfaction on the part of Glendale people with the present telephone toll rates between Glendale and Los Angeles and also with the Railroad Commission on account of their apparent delay in taking this matter up. The city has repeatedly called the Railroad Commission's attention to this matter and although promises have been made as to a hearing no hearing has been held as yet. The appointment of this committee would seem to afford an opportunity for the city of Glendale to be heard in regard to this matter.

"I would therefore recommend that Hartley Shaw, city attorney, be instructed to get in touch with Senator Inman and arrange that the city of Glendale be heard on this matter when the committee meets in Los Angeles and that past city attorney, W. E. Evans, be requested to confer with Mr. Shaw in regard to this matter and submit to him such facts as he may have in regard thereto and to otherwise assist Mr. Shaw in the presentation of this matter before the committee."

ISSUE STATEMENT

WELL KNOWN REPUBLICANS IN THIS DISTRICT SUPPORT MAJOR LINEBERGER

State, county and city Republican leaders have united in urging the election of Major Walter F. Lineberger of Long Beach, candidate for congress at the special election to be held February 15.

Leaders have issued a statement in support of Major Lineberger, and John Robert White, Charles H. Toll and Owen C. Emery of Glendale have signed it, among others.

"No district in the state of California," says the statement, "is in greater need of adequate tariff on its industries and products than is the ninth district, which is engaged in the growing of lemons, oranges, walnuts, beans and other foodstuffs from the soil. This is a fact which Mr. Lineberger, as a Republican and as a sound business man, realizes with completeness, as did Mr. Van de Water.

"That the United States as a whole must get back to Republican tariff principles as speedily as it may be done, is Mr. Lineberger's profound belief, which is, of course, in complete accord with national Republican principles. California needs Republican congressmen more than any other state in the union, and these congressmen must not be merely representing themselves to be "self-nominated" Republicans who have not the confidence of the Republican party in the district, and they must not be former Democrats who have become advocates of tariff principles simply to perpetuate themselves in office.

Understands Harbor Needs

"Mr. Lineberger, as an engineer and as past-president of the Long Beach harbor commission, understands the needs of Pacific coast harbors, with the interrelating questions of flood control, conservation of water and reforestation. That Los Angeles county and southern California will launch upon a great and comprehensive plan of water retention in the mountains within the near future is shown through the activities of the present, and that the federal government must be urged to participate in these great plans is the firm belief of Mr. Lineberger, whose education and training make him the ideal man to present such problems to committees in congress.

"Mr. Lineberger's position on the dry amendment is unswerving and unequivocal. He realizes the wonderful moral and economical results that have already been obtained in the country through this legislation, but is also of the belief that the fight to maintain the dry amendment unimpaired must go on with determined, whole-hearted men defending its letter and its spirit. The days of a wet America will never come again, he is certain, for, added to the ranks of the pioneers for a dry America who carried on the great fight in its incipiency, are now the thousands and thousands of new recruits who have seen its undoubted beneficial results.

Strong Worker for Drys

"But there will be a liquor lobby for many years, he is sure, and that lobby must be fought in season and out, until the wet and dry question disappears from our national life. In this fight for the maintenance of the dry amendment and for the strengthening and enforcing of the Volstead act, Mr. Lineberger is determined to be in the forefront, whether elected or not.

"First as an American citizen, and second, as a past-commander of the American Legion, Mr. Lineberger stands for a thorough, impartial, and complete consideration of the so-called four-fold compensation act fostered by the American Legion, and pledges his service to an equitable and just settlement of this question in congress. He will make it one of his paramount duties to see that bills advocated by ex-service men are given a fair and square deal.

"We urge every voter who voted for and desired the election of a staunch Republican at the polls in the November election to make it his or her duty to register a vote at the special election on Tuesday, February 15, for Walter F. Lineberger."

Back to the "Simple Life"

The Glendale Sanitarium operates on the theory that you cannot get well thinking about your difficulties. You cannot get well doing the very same things and living in the very same atmosphere that produced illness. Medicines can never take the place of Nature's own curatives.

You need pure air, rest, proper food, proper exercise, healthful surroundings and simple treatments. The broken-in-health body needs a real service—not a service that prods it into temporary activity only to suffer a relapse, but one that is regenerative and reconstructive in its fundamental character and the effect of which is permanent.

The Glendale Sanitarium system of treatment excludes medical and dietic fads. The keynote is simplicity in habits—a return to Nature in principle, the utilization of those great powers which create and maintain all living things and which alone are able to cure.

HONOR OFFICIALS

GOVERNOR W. D. STEPHENS AND FORMER GOVERNOR LOWDEN ARE BANQUET GUESTS

The board of directors of the Union League club has completed plans for the elaborate reception and banquet to be held tonight at the club's new quarters, Third and Hill streets, Los Angeles, in honor of Frank O. Lowden, former governor of Illinois, and William D. Stephens, governor of California. A number of residents of Glendale plan to attend.

It is announced that preceding the banquet a public reception, beginning at 5 o'clock, will be held, in order that an opportunity may be given people to meet the man who has just retired from the governorship of Illinois.

Places for 500 have been reserved at the banquet table, over which Judge Dana R. Weller, president of the club, will preside. John D. Fredericks will introduce Governor Lowden and Governor Stephens, who will make the addresses of the evening.

COPIES OF BILLS

COMPLETE SET OF FILES OF LEGISLATIVE MEASURES AT EVENING NEWS OFFICE

The Evening News has received from Sacramento a complete set of all of the bills introduced at the recent session of the state legislature and which will be considered when the legislators reconvene.

The bills on file at this office are open to inspection of anyone who may be interested in any particular measure under consideration by the legislature, but the files cannot be taken out. This office will be pleased to permit the bills to be examined, but as the files are for The Evening News' library, it is plain that the office cannot permit their removal.

May Make Public Address

John Robert White, assemblyman from the sixty-first district, which includes the city of Glendale, secured the files for this office. He states that he will be pleased to give any information he may possess in regard to pending measures and, too, it is possible he will arrange to address a public meeting on the subject of legislation before his return to Sacramento.

SCORED BY COURT

JUDGE LOWE CENSURES MAN FOR ALLOWING EMPLOYEE TO VIOLATE LAWS

A case came up in Judge F. H. Lowe's court Tuesday that had some features about it that are all too common, said the judge, but which should not be.

The young driver of a truck for a Los Angeles business man named Bristow was arrested for driving on the streets of Glendale with improper lenses and lamp of too low candle power. His employer demanded a jury trial, but when confronted by the evidence, which was all against him, he changed his mind and ordered the driver to plead guilty and pay the $15 fine assessed against him.

Judge Lowe spoke strongly to Mr. Bristow on the wrong done by employers who refuse to equip their trucks as the law requires, then allow the drivers, who are not to blame for such omission, to pay fines.

COST OF LABOR

SOUTHERN CALIFORNIA FARMER IS MAKING ESTIMATE UPON EXPENSES THIS YEAR

The southern California farmer is beginning to wonder what his 1921 labor will cost. Conditions are very different from any which have prevailed for several years. The margins are closer, and the soil tiller must figure with more of his old-time caution if both ends are to be joined.

The department of agriculture says that the cost of farm labor has more than doubled in the last ten years, tripled in twenty years, and was more than four times higher last year than in 1879.

Wages paid by the month, without board, averaged $64.95 for the country as a whole last year. Ten years ago they averaged $27.50 and in 1879 they were $10.43. Day labor at harvest time last year averaged $4.36 without board.

Paid Highest Prices

Ten years ago harvest-time labor was paid $1.82 and in 1894 harvest-time day labor was paid $1.13 and non-harvest time labor 81 cents.

California and Nevada farmers paid their labor the highest prices, an average of $107 a month without board. The lowest average was in Mississippi, where $41 was paid. The North Atlantic states averaged $75.54; South Atlantic, $50.56; Northeast Central states, $70.09; Northwest Central states, $79.79; South Central states, $51.94, and the far western states, exclusive of the ones mentioned, $99.43.

OWN YOUR OWN HOME

Build that new home now

Ask About Bentley's Building Service

—and let it be a new home

It's just as cheap to build as it is to buy an old house and then spend several thousand dollars repairing, redecorating and remodeling, and still have an old house patched up.

You get so much satisfaction out of a new house, especially if it is built according to plans which you have selected or approved; everything is fresh and clean and arranged to suit your convenience.

It is the part of wisdom to build a home now rather than pay rent or buy an old house. It is better for you and better for the community, too, for there are not enough houses in Glendale to accommodate all who wish to live here.
